

Treasure Safe

Enigma n°8

25th June 2024

The safe code is made of 4 digits, all different.

Four people have tried before you, and the master keeping the safe gave some clues:

- 8 0 7 4: Two numbers are correct and well placed.
- 3 7 8 2: A number is misplaced but correct.
- 7 5 1 9: Nothing is correct.
- 5 1 2 0: Two digits are misplaced but correct.

What is the safe code?
